

LET'S TALK

Colleagues

By now you will be aware that President Ramaphosa has directed that South Africa's COVID-19 lock-down is going to be extended by another two weeks, until 30 April 2020.

In congratulating and thanking the people of South Africa for heeding the call to be safe and responsible during lock-down, he appealed to everyone for patience and even more resolve. He also indicated that certain sectors will return to operation sooner than that, in the national interest, and that we would hear more about this next week.

We, at South Deep, will continue to heed the call by the President. We do not yet know whether mining will be restarted. But, if and when it does start up, there will be a build-up to production, with our total and absolute emphasis on ensuring the health of our people.

At present we are considering how best to approach the President's announcement and will also be seeking an urgent engagement with organised labour during the next few days. We accordingly request your patience and understanding, as we decide how to manage a very complex and fluid situation.

We will continue to stay in touch with all our people. If you have any questions please contact our hotline: 072 512 9753 or 072 649 8255, or watch our Facebook page: <https://www.facebook.com/goldfieldsouthafrica/>

Thank you for your support for our President and the self-discipline to do the right things to ensure your health and safety, and that of those you love and care about. We have full confidence that we can and will get through this crisis and build a better future.
